Explain and set expectations for ethical behavior in research and practice settings.

Truett-McConnell College

Assessment Data by Section

2014-2015 MA in Theology

As of: 2/22/2016 10:59 AM EST

Goals

Goal 1: Biblical and Theological Knowledge
Students will obtain a useful knowledge of the biblical languages, both Hebrew and Greek. A useful knowledge indicates that the student will be able to apply the knowledge gained in their own Christian ministries. Further, students will be able to identify and assess theological systems in order to be informed of various answers offered to foundational theological questions.

Goal 2: Biblical and Theological Method
Students will obtain an effective methodology for understanding and interpreting Scripture and develop their own approach to Christian doctrine. This goal must include an understanding of the relationship between proper interpretation of Scripture and the development of Christian theology.

Goal 3: Theological Heritage
Students will obtain and understanding and ability to evaluate the historical Baptist tradition as well as the development of Christian doctrine within the larger Christian historical context.

Goal 4: Ministry Application and Practice
Students will obtain effective methods for the implementation and practice of a biblically based Christian ministry in the local church.
